

Life Skills Parent Volunteer Opportunities

Dear Parents and Guardians,

Because of the unique hands-on learning that takes place every day in life skills, I am asking for help from our Flushing families. We go through a large amount of consumables (edible and non-edible) over the course of 18 weeks. I have created a list of some of the things that you could help us with if you would like. This is not a requirement for your child at all, it is totally optional.

FOOD PREP

- 16 oz. box of pasta (any kind is fine) Tomato sauce (plain, usually found in cans)
- Cans of petite diced tomatoes
- Pancake mix (instant or regular is fine)
- Gently used cookware (pots, pans, frying pans, lids, electric frying pans, etc.)
- Silverware/utensils (pasta servers, cutting board, forks, knives, spoons, chopping knives)
- Spices/seasonings (cilantro, oregano, basil, garlic salt, salt, pepper)

PLUMBING/WIRING

- We use 14-2 and 14-3 NM cable (wire) in the classroom. Any length works just fine.
- We use 1 ½ inch PVC pipe (O.D.) Lengths could be from 1 ft on up.
- We use ½ inch CPVC supply lines (O.D.)
- We are also looking for light switches, wire ripper and stripper multi-tools, outlets.

If you have something lying around the house that might fall under this list, you can drop it off anytime during the day at my classroom, send it in with your child, or I can come pick it up if that is easier for you.

You can also donate your time in the life skills classroom if you would like. We are always looking for an extra set of parent eyes for our cooking dates in the kitchen! I will post these dates very soon. In the meantime, if you are interested in helping out and stopping by, email me and I will send you more information.

Thanks

Justin Decker
